

87 Tremolo

MANUAL MACHINES

The 87 series aims to put affordable boutique effects in the hands of people with \$87.

CONTROLS

- X controls the rate of the effect.
- Y controls the depth of the effect.

SWITCHING

This pedal features DPDT true relay bypass switching.

POWER REQUIREMENTS

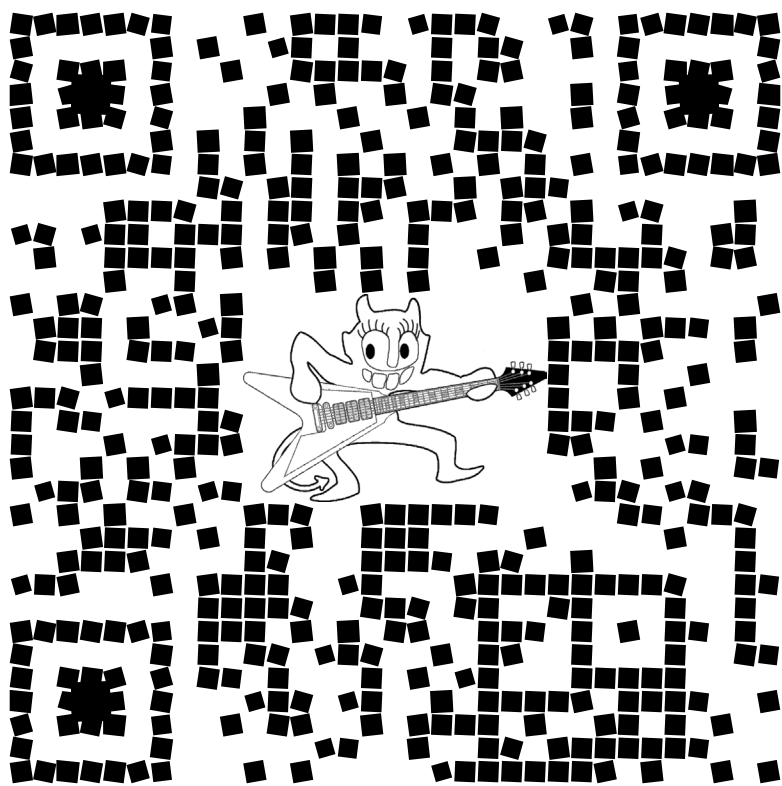

This machine takes a standard 9 volt DC power supply with a 2.1mm negative center barrel. We always recommend pedal-specific, transformer-isolated wall-wart power supplies or multiple isolated-output supplies. Pedals will make extra noise if there is ripple or unclean power. Switching-type power supplies, daisy chains and nonpedal specific power supplies do not filter dirty power as well and let through unwanted noise. DO NOT RUN AT HIGHER VOLTAGES!

Current draw: <60mA

WARRANTY

This machine has a limited lifetime warranty. If it breaks, we will fix it. Should you encounter any issues, please email info@demonicmachines.com
